Senior Business Systems Engineer | Full-Stack Engineer | GovTech Specialist

Tangerang, Indonesia · +62 812-9760-0770 · sonatha.tambunan@gmail.com · [linkedin.com/in/sonatha-marsaor-tua-tambunan-1a85a514a](https://www.linkedin.com/in/sonatha-marsaor-tua-tambunan-1a85a514a) · github.com/sontbn

Senior full-stack and business systems engineer with 9+ years of software delivery experience and 12+ years in Indonesia's Ministry of Finance. Transforms complex business processes and governance requirements into secure, scalable, maintainable digital systems. Experienced across architecture, APIs, workflow automation, data integrity, performance, risk management, and BCM/ISO 22301.

PROFESSIONAL EXPERIENCE

DIRECTORATE GENERAL OF TREASURY - MINISTRY OF FINANCE

Jakarta, Indonesia

IT Strategy & Governance Specialist / Senior Software Engineer

2023 - Present

- Lead policy-to-system initiatives and translate governance, security, risk, and operational requirements into practical software solutions.
- Develop and refine technical controls, system architecture, APIs, workflows, and data models for high-adoption government platforms.
- Evaluate code and system outputs for logic, structural integrity, maintainability, performance, and compliance with business requirements.

FREELANCE SOFTWARE DEVELOPMENT & CONSULTING

Remote

Senior Programmer / Business Systems Consultant

2016 - Present

- Build, modernise, troubleshoot, and extend web and mobile applications; rescue existing projects and improve code quality without unnecessary rewrites.
- Automate repetitive work using Python, n8n, APIs, dashboards, and lightweight AI; integrate payment, messaging, email, Google Workspace, and third-party services.
- Maintain a 100% completion rate and 10/10 client rating on Projects.co.id platform through clear scope, transparent progress, and reliable delivery.

SELECTED PRODUCTION SYSTEMS

IMPACT (IT Governance, Angular/Spring Boot) · **DigiPay Satu** (Government e-Commerce, Angular/Node.js) · **DIGIT** (SSO, Laravel) · **SIKP** (KUR Credit, Laravel) · **INCRIMA** (Risk Management, Ministry of Finance & BAKTI Kominfo, Laravel) · **INTENSE** (Performance Management, Laravel).

ADDITIONAL PORTFOLIO

- Python automation: web/data crawling, scheduled actions, operational triggers, and process automation.
- Interactive election-data visualisation and dashboards; Linux server-management technical writing.
